Recommended with the:

CD 108G - Pig Roaster is a gas-fired unit. A 30 lb. tank will do approximately 15 hours of cooking at a temperature of 300-325 degrees.

BBQ 42 is charcoal-fired. We recommend approximately 25-30 lbs. of charcoal to cook 40 lbs. of chicken for first rack. If you wish to continue to a second rack, add approximately 10-15 lbs. of charcoal. For other cuts of meat, grilling, smoking, etc., put in your desired amount of charcoal.

Meadow Creek Welding uses only food grade T-304 stainless steel in the fabrication of parts identified as "stainless steel" that will contact food under normal use. This includes, but is not limited to: Grates, racks, shelving, work surfaces and complete units constructed primarily of stainless steel and sold using that description.
